

## **GOOD SCIENCE = GREAT BUSINESS 2018: AN AUSTRALIAN FESTIVAL OF INNOVATION IN SINGAPORE & ASEAN PROGRAMME**

CSIRO's solar technology will be used for a heliostat field in Japan

### **GOOD SCIENCE = GREAT BUSINESS 2018**

The Australian High Commission in Singapore will hold an Australian Festival of Innovation in Singapore and ASEAN over the month of September 2018.

*Good Science = Great Business 2018: An Australian Festival of Innovation in Singapore and ASEAN* will gather top scientists and business leaders to promote innovation collaboration between Australia and Singapore, and into the Southeast Asia region.

*Good Science = Great Business 2018* will showcase Australian innovation and science capability. The Festival will draw out research complementarities and opportunities for collaboration between Australia and Singapore. Focus sectors will include medtech and health, data and marine sciences, and defence science. Commercialisation, the start-up ecosystem and innovation in business will be cross-cutting themes.

Held around the Singapore Week of Innovation and Technology (SWITCH) in September, *Good Science = Great Business 2018* will illustrate how great science translates into the companies that drive future industries and economic growth in Australia, Singapore and ASEAN.

*Good Science = Great Business 2018* builds on bilateral science and innovation cooperation between Australia and Singapore under our Comprehensive Strategic Partnership.

## FESTIVAL EVENTS

Please note: The Australian High Commission is currently seeking event sponsors for Festival Lectures and Expert Panel events throughout the Festival. Please contact us if you would like to find out more.
